

Target Transparencies / Overlays

I made up these target overlays to be used for Ransom Rest testing or when firing at a blank target. Simply print them out on a transparency and trim to size. They are not official nor approved by any governing body. They are for personal use only.

10 meter Air Pistol Target.pdf

Standard 10m AP target showing scoring rings from the 7-ring to the inner 10.

9 ring.pdf

NRA B6 Target, 50-yd center covering only the black center

X ring.pdf

This is the same as above B6 overlay except it is only the 10 and X ring center. Good for checking if your groups are under 1-1/4" at 50 yds.

Coming soon:

NRA B2, B3, and B8 target transparencies.
